

SCCA Newsletter – Meeting held at Fields of Grace Educational Center On Rte. 145 East Cobleskill, N.Y. on June 22.

Greg Warner, President of Schoharie County Conservation Association called the meeting to order with the pledge of allegiance with 10 in attendance. Clubs represented were NWTF - Schoharie County Schoharie Ridge Runners, Middleburgh Rod & Gun Club, West Fulton Rod & Gun Club, Richmondville Fish & Game Club, Long Path North Hiking Club, Middleburgh Ridge Runners Snowmobile Riders, Summit Sno Riders. Also in attendance was Kris Hofeller, our Schoharie County Veteran's area representative. Minutes from the last meeting were read and approved by Dave Wood and 2nd by Liz Reinhart. The Treasurer's report was read and approved by Kris Hofeller and 2nd by Eric Haslun. The membership voted and approved both reports. The next SCCA meeting will be held at SCCA Fair Booth 6 PM on July 27th. This will give us time to work on the booth getting it ready for Fair week. SCCA about did hold a Youth Fishing Event on June 24, 2023 at the Cobleskill Reservoir in conjunction with New York State's Free Fishing Day (no license required) and was for kids only. Local 157 Labor's Union in Schenectady donated \$300 toward the cost of prizes for this event. There were close to twenty kids fishing and close to 25 fish were caught/ The largest fish was a perch. The event started at 8am for Registration, fish from 8am to 11 and 11 to 2PM. Worms were donated by Off the Beaten Path in Central Bridge. We had to cut the day short because of a heavy down pour so we did not dish out the ice-cream donated by Stuart's. We called it quits about 11:30. Prizes and Trophies were handed out. Then all the kids left because it was raining so hard. Doug Handy did most of the leg work for the fish derby.

There were questions concerning having the NWTF shooting booth at the Cobleskill Sunshine Fair. Because of the new laws passed this past year, we checked with the Fair Board and they approved to have BB guns at the fairgrounds. SCCA has asked the NWTF if we can purchase one of the BB Gun booths from them. They said no, to our offer. The NWTF is considering modifying the booths into Archery Shooting booths. They have three of these booths. The SCCA membership approved to purchase a shooting booth from Daisy Shooting Sports for a cost of \$3000. The Schoharie County Vets Association is considering to pay for 50% of the booth. This has to be approved by their Board. The Booth has been ordered and delivery is expected before the fair. This means we need volunteers to help sell Kayak tickets and supervise the youths in the BB Gun Booth. Please sign up by calling Liz Reinhart (518-339-2464) We run 6-hour shifts from 10AM to 4 PM and 4PM to 10PM. We need three people on each shift so we need a total of 36 volunteers. A fair pass will be given to each volunteer for the day.

Lifetime Hunting and Fishing License: SCCA has once again voted to sponsor a Lifetime Hunting/Fishing license for the fourth year. This drawing is open to all members' children and grandchildren, great grandchildren below the age of twelve as of December 31, 2023. It can be an Association Club member or an Individual Club member's relative. We had 44 applications to draw from last year. This was the fourth youth that SCCA has sponsor a lifetime hunting & fishing license.

NYS DEC: The State is getting closer to stopping hunters from using lead bullets on NYS Lands. There will be a \$60 rebate this fall for hunters who purchase lead free ammo for hunting in certain WMU Regions 4F,4G, 4H, 4O, 4B, 4R, 4W. This program will be for the next two years. This program is to help lower the number of Eagles and other wild life from getting lead poisoning. Check the DEC website for more information.

Region 4 - New York Fish & Wildlife Management Board: Meeting was held July 12th at the NYSDEC office in Rotterdam with 16 in attendance. Larry Didonato, Chairman of the Board reviewed the new policy of NYS DEC cutting Access to Trout Streams called Stream Access Verification Plan. This new plan includes that landowners along stocked streams are sent notifications asking for permission to post signs allowing public fishing access on private lands along with adding their properties to the NYS DEC Website (DEC Mobile App) for all to access. If the letters sent did not get a response then that area was dropped from the fish stocking program. The state has only just started this program in certain counties. In Seneca County in 2018, 780 trout were stocked but because of the low number of responses from landowners only 525 were stocked in 2023 because of landowners who declined to allow public fishing access. Some other areas have seen an 80% reduction in the number of trout stocked because of this program. At the last FWMB meeting it was decided that our Chairman of the board draft a letter to our Governor. Here is a copy of the draft letter.

We, the New York State Fish and Wildlife Management Board of Region 4, would like to bring an adverse DEC fisheries policy to your attention. The primary focus of Regional Fish and Wildlife Boards is to secure and enhance public access and habitat for recreational purposes. Board members include legislative, landowner, and sportsman representatives designated by

legislatures from the nine counties in and around the Capitol District and Northern Catskills. I'm writing to express serious concerns with New York State DEC's Stream Access Verification Plan. This new fisheries policy is doing irreparable damage to long established public access for NY fishermen to harvest trout on private property. At our spring quarterly meeting, the board voted to call for a halt to DEC's Stream Access Verification Plan before it results in further elimination of access to streams across the state. In counties where it has been implemented, the plan has caused loss of nearly 70 percent of access to privately owned trout streams with at least a 30 percent reduction in numbers of trout stocked. This at a time when voters just approved the \$2.2 billion Environmental Bond Act with \$75 million earmarked for DEC trout hatcheries. Fishermen's license dollars contribute greatly to the nearly \$40 million per year collected for the NYS Conservation Fund. The fund which pays for fish stocking and the salaries of those at DEC who now have chosen to decimate their own stocking program. It is a matter of to have, and have-not. The severe reduction in access and numbers of trout stocked, disproportionately impact lower and middle-income NY residents. One stream accessible by bus from the cities of both Albany and Schenectady, just lost trout stocking due to this ill-advised new program. These residents can't afford to buy or lease properties with trout streams or go on expensive guided trout fishing excursions. DEC's longstanding stocking program complete with hard-fought access to private streams allows folks to harvest and consume trout that provide nutritious meals. Taking food off their tables given this difficult economic period is unnecessary and ill advised. This is not the time for DEC to be cutting services to marginalized citizens.

We at the Region 4 Fish and Wildlife Management Board have resolved, and seek your support to discontinue DEC's Stream Access Verification Program. Your attention to this time sensitive issue will be greatly appreciated by the board as we strive to fulfill our legislative mandate in service to the citizens of New York State. Sincerely, Lawrence DiDonato, Chairman, Region 4 Fish and Wildlife Management Board. DEC is changing its policy on trout stocking. They are trying secure verified public access on trout streams the traverse private lands. (Stocked Trout Stream Access Verification) DEC is sending out letters to land owners who own lands next to streams where NYS has stocked trout for years. DEC wants to put up signs which tells the public where public fishing is allowed. They also want to advertise the landowners' names and GPS locations on the DEC internet so any person would have access to this information. The landowners need to reply back to DEC agreeing with this request. If DEC doesn't get a reply from the land owner than no more trout will be stocked at that location. DEC is losing between 60% to 80% of the sites. Different counties have seen a big reduction in the number of trout which have been stocked for years. This policy is part of the 2020 Trout Stream Management Plan who need to provide accurate, up-to-date information to anglers regarding how stream segments are managed, what they can expect when they visit those streams, and where those streams are publicly accessible to better meet angler needs. This information is found on the Interactive Trout Stream Fishing Map & Tackle Box Module of the HuntFishNY app on NYS DEC webpage. More info available (<https://www.dec.ny.gov/outdoor/111015.html>) This is some information we received in response to our letter.

Long Path North Hiking Club: Next meeting will be held on Sept 16th at 10 AM @ NYPA in Blenheim. Total membership is now 180 with 46 Life Members. Long Path lost access across Nickerson Park because of new owners. A work around is in progress. Another project being considered is a Lean-to in Mine Kill State Park. When Mark Traver and Mike Zeh attended the Wildlife Management Taskforce Meeting at the Blenheim/Gilboa Visitor's Center, we asked the NYS Power Authority/Mine kill State Park to consider a lean-to on their property. After this meeting Managers from the Power Authority gave the green light to Mine Kill to support this project. On December 17th Mark met with Chris Kenyon, Park Manager, to look at possible sites. Four possible sites were chosen for review, all with a great view of the Reservoir. Chris is investigating to make sure there is no restrictions and pick a final site. He will then work on the plans for the lean-to and building material. This lean-to will be on the trail of the Long Path. Hopefully work will begin this summer.
