Venison Donation Program: In 2025 over 1000 pounds of venison was donated (45 deer). This venison was delivered to eight different food pantries locations throughout the county during the months of February and March. Schoharie County Whitetails Unlimited did donate another 50 Caliper CVA Black Powder Rifle to encourage Deer Hunters to donate a whole deer to the program. This venison is ground into packages of 1 to 2 pound. SCCA did have a drawing from all the names who donated a whole deer at the January 2026 SCCA meeting. Gregory Hoffman from Delanson was the lucky winner. It cost SCCA \$3,645.35 for the meat processing. SCCA has chosen to pay the price so we can decide where the venison is given out and to whom receives it (food pantries). Marlow Meat processing in Howes Cave donates his services and Blues Meat Processing in Berne do the meat processing. Eric Haslun is POC – 518-231-1744. SCCA did received 20 deer donated during Archer season this past fall and another 25 plus deer during the gun season of 2025. Hopefully we will exceed the 2024 season. Blue’s Meat Processing has asked each donator for a \$50 fee to help offset the increased cost of processing the meat. Marlow Meat Processing is still donating the cost of processing the meat. To make things more expensive the NYS Dept. of Health has asked the food pantries to hand out a brochure about the venison may be contaminated with lead. These pamphlets needed to be in color which made them more expensive to print. Senator Oberactor and Assemblyman Tague have agreed to pay for printing of these brochures. The Department of Health dropped the eight ball on the delivery so we needed to get them printed so we could hand out the venison through the food pantries. **SCCA did receive a donation from Fenimore Asset Management Group in Cobleskill to help the venison meat processing cost.**

NYS DEC: Joshua Johnson and Adebajo Ayotunde are two Dam Safety Inspectors employed by NYSDEC. They came out to Fancher Pond which SCCA owns. SCCA officers met with them on October 29 when they did the inspection. They gave us a heads up on what we needed done at the Pond. We needed to remove some brush and a couple of trees growing on the dam. They will follow up with a written report. The SCCA members already completed the work suggested. Still waiting on the written report from Inspectors. We hope for a classification change so we wouldn't have the need for State inspectors so often. SCCA has engineering staff reviewing the report from the inspectors. He stated that we need to cut down a large willow tree growing on the dam/spillway. This is a very large tree and may need a professional. SCCA does not own the property where the Dam is located. SCCA only owns the land under the water, Fancher Pond.
